

# CE Marking

## CE Marking

LabTest Certification Inc., an independent Certification Body (CB) accredited by the Standards Council of Canada, is recognized to test & certify various product categories for manufacturers wanting to gain market access in the international arena, for example, the European Union . To sell your products into the European market, they must meet the requirements of the relevant product directives, rules that have been put in place to simplify trade with the member countries of the European Union. CE Marking is a manufacturer's self declaration that states the products meet the requirements of the relevant Directives and guarantees free movement of your products within the EU (CE marking).

LC Mark Fully Accredited!

A great alternative to CSA & UL

Fast, cost-effective and painless

Get your product to market faster!

### LabTest's Simplified CE Marking approach:

- Identify all applicable Directives/Standards
- Decide on a streamlined conformity route
- Perform all appropriate testing
- Prepare/Write Test Reports and Technical Files
- Prepare/ Approve Declaration of Conformity (DoC)
- Facilitate client's registration with appropriate European governing bodies
- Provide ongoing compliance and design evaluation services

With our commitment to customer service and understanding of the national product standards, LabTest provides a quick, cost effective and painless route for all your product testing and certifications. For organizations with global markets and/or multiple product categories, LabTest offers you a "One-Stop-Solution" for both domestic and international markets:

- |                            |                       |                           |
|----------------------------|-----------------------|---------------------------|
| • Safety Directives        | • Marine Equipment    | • Gas Appliance Directive |
| • Low Voltage Directive    | • EMC Directive       | • Simple Pressure Vessels |
| • Medical Device Directive | • Machinery Directive | • ATEX Directive          |
| • Recreational Craft       |                       | • many others             |

Local Access    Global Access → Global Market Access → \$\$\$
