

Certification

Certification

LabTest Certification Inc., an independent Certification Body (CB) accredited by the Standards Council of Canada, is recognized to work on a variety of projects for testing and certification. Based in Richmond B.C., LabTest's independent testing laboratory has established an excellent track record of producing fast, accurate results through streamlined testing methodology. Our team of experienced engineers and project managers provide exemplary service, thereby reducing impediments in your products' crucial time to market; we also specialize in strategies to maximize cost containment for products launched into multiple markets.

LC Mark Fully Accredited!

A great alternative to CSA & UL

Fast, cost-effective and painless

Get your product to market faster!

Capable of handling all your needs for product testing, LabTest's comprehensive process covers the entire range of global certification requirements:

- single test plans to reach both domestic markets requiring certification to CSA, UL & ANSI standards
- test plans to reach international markets such as the European Union (CE Marking), and the CUE Mark (Canada, US and the EU)
- through our partnerships, we can also provide you with CB Scheme certificates (43 Countries)

With our commitment to customer service and understanding of national product standards, LabTest provides a quick, cost effective and painless route for all your product testing and certification. For organizations with global markets and/or multiple product categories, LabTest offers you a "One-Stop-Solution" for both domestic and international markets:

- Electromagnetic Compatibility (EMC) & Immunity Testing
- Safety Testing
- Special Inspections/Field Evaluations
- FCC & IC Certification
- Testing and Consulting Services for Marine Equipment
- Internal Product Testing for R&D
- Gas Appliances
- Plumbing
- LED
- Energy Star
- Environmental Testing
- CE Mark Testing
