

Marine Equipment

Marine Equipment

LabTest Certification Inc. is authorized with multiple accreditations to work on a variety of projects for marine testing and certification. By using our intimate knowledge of the marine environment and regulations, LabTest experts provide a quick, cost effective and painless route for marine product testing and certification, reducing your development risk and time to market. LabTest also has an excellent working relationship with major players in the marine industry and regulatory bodies, which can be a significant benefit when acting as your testing and certification provider.

LC Mark Fully Accredited!

A great alternative to CSA & UL

Environmental and EMC Testing

In addition to being an ISO 17025 Accredited Testing Laboratory, LabTest is a recognized Testing Laboratory by DNV, a notified body for the Marine Equipment Directive. LabTest is able to provide manufacturers with various types of EMC and Environmental Testing. This, coupled with our experienced staff, means that we can offer you a range of services from individual tests through to a 'one-stop-shop' to undertake Performance Assessment, Durability Testing, Type Approval service and Consulting services for marine equipment.

- Recreational Craft Directive
- Marine Equipment Directive

Type Approvals

- Lloyds
- EN 60945
